

SCREAMER

Screamer never strays far from the proven sound of roaring guitars and pounding drums that works equally well in the war pit in front of stage as when blasting through your stereo. In Screamer's music you can hear the classic foundations laid down by the hard rocking heroes of old. With a combination of straight-forward choruses of the likes of Dio, guitar works in the style of 'Maiden or 'Lizzy on speed and the pounding beat of Judas Priest, Screamer has carved out their very own essence of heavy metal that stands the test of time. The new album is set to be released the 11th of October 2019 on The Sign Records.
